# Asifur Rahman

**Full Stack Developer**
Dhaka, Bangladesh | +8801621294904 | LinkedIn | Github | Portfolio | asifur.rahman4904@gmail.com

## Experience

**Software Engineer**
**TestSignal** | Remote | Jan 2026 – June 2026

- Developed and maintained features for a production A/B testing SaaS platform.
- Built REST APIs using Node.js and Express, with PostgreSQL for data storage.
- Integrated frontend features with backend APIs and improved application reliability.
- Optimized PostgreSQL queries and REST API performance, improving response times and application reliability under real user traffic.
- Deployed and maintained application infrastructure using AWS EC2 and S3.

**Jr. Software Engineer**
**DevsNest** | Mar 2025 – Dec 2025

- Developed production frontend features using React and TypeScript.
- Integrated frontend components with backend APIs to deliver application functionality.
- Built reusable UI components and improved frontend maintainability.
- Debugged and troubleshot application issues and supported ongoing product development.

## Professional summary

Website Developer with 1+ year of professional experience building and maintaining production web applications using React, Next.js, TypeScript, JavaScript, and Tailwind CSS. Experienced in developing frontend features, building reusable UI components, integrating REST APIs, and working with responsive web design.

## Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, JWT, Auth0, Authentication, Authorization
- **Databases:** MongoDB, Mongoose, PostgreSQL, Prisma, Sequelize
- **State Management & Data Fetching:** Redux Toolkit, TanStack Query, Axios, Zod
- **Tools & Cloud:** Git, GitHub, Docker, AWS EC2, AWS S3, Postman, Vercel, AI coding assistants

## Projects

**[2] Life Hospital –** Hospital Management System - A centralized healthcare platform that digitizes hospital operations, streamlines patient-doctor coordination, and simplifies appointment scheduling, prescriptions, and payment management.
Live Demo: Live Link | Frontend : Github | Backend : Github
**Features:**

- Developed a multi-role healthcare platform implementing Role-Based Access Control (RBAC) and secure authorization.
- Engineered appointment scheduling, doctor availability management, and automated workflows for unpaid appointment cancellations.
- Integrated payment processing , automated invoice, digital prescription management, and email notifications.

**[1] NextGenHunt -** Product hunting website - A full-stack platform for discovering and sharing tech products, with user interactions and administrative features.
Live Demo: Live Link | Frontend: Github | Backend: Github
**Features:**

- Developed product and coupon management workflows with CRUD functionality and role-based access.
- Integrated third-party Stripe payments and built an admin dashboard for analytics and user management.
- Implemented a voting system and product reviews to support user engagement.

## Education

**Independent University, Bangladesh**
BSc in Computer Science and Engineering - 2021
